Summary of Comments:

Please give details of why you consider the proposed Main Modification that you are commenting on is sound ("Yes") or unsound ("No"), with reference to the tests above. Please be as precise as possible.

Object to Main Modification 116 Pages 87-89 Policy E2.1 → The plan does not account for holiday traffic to the Norfolk coast, sugar beet and farm traffic which ~~also~~ ~~contribute~~ already contributed to poor traffic.

Object to main modification 115 Page 85 Policy E2.1 → County's outline business case outlines that the development will increase accidents in west winch and Seamaunding villages. The A10 cannot cope with the increase of 1,100 houses before the housing access road is built.

(Continue on a separate sheet if necessary.) continued over

Please note you should cover succinctly all the information, evidence and supporting information necessary to support/justify your comments.

Without the bypass to remove the traffic, traffic calming cannot be implemented and the area will continue to be dangerous for pedestrians and cyclists. The inadequate road will leave the new development dependant on cars which goes against national policy.

Not building a new primary school ^{← until 600 houses} will substantially increase journeys on the A10 due to hundreds of parents driving to the primary school due to the road being unsafe for pedestrians.
