**Summary of Comments:**

Please give details of why you consider the proposed Main Modification that you are commenting on is sound (“Yes”) or unsound (“No”), with reference to the tests above. Please be as precise as possible.

The PC believes that the revised policy is sound and contributes to greater clarity in the plan.

The policy demonstrates a very healthy five year housing land supply and the reduced dependence on windfall is welcomed – even though 25% is still a significant figure.

Clearly, more work is needed to achieve appropriate development in the King’s Lynn Urban Extension and much more could be achieved by better exploitation of the opportunities offered by the A10 London/Cambridge/Kings Lynn multi modal corridor.

Going forward – much greater focus needs to be placed on achieving development solutions that better integrate economic activity, land use and transport (all modes including active travel)..

(Continue on a separate sheet if necessary.)

**Please note** you should cover succinctly all the information, evidence and supporting information necessary to support/justify your comments.
