Summary of Comments:

Please give details of why you consider the proposed Main Modification that you are commenting on is sound (“Yes”) or unsound (“No”), with reference to the tests above. Please be as precise as possible.

The development of site G56.1 is supported by the Parish Council. I too, support this development.

The site G56.1 (with full plans available) affords the opportunity to expand exponentially and to ‘join’ the village with the airbase housing if required, or alternatively from the airbase housing back down towards the village, with provision for more recreational facilities ‘in the middle’.

The current site plans have already made provision for a turning circle and pick-up/drop-off point for the junior school – thus alleviating the historical and persisting vehicle issues around Hillside, which pose an extremely high health and safety risk to not only the children, but parents, teachers and the long-suffering residents.

Depending on the improvements to ‘the dirt track’, which currently extends to the airbase housing, it would enable better access to the limited facilities at RAF Marham for all villagers (not all facilities are available to villagers).

It is suggested that this site (G56.1) alone is more than adequate to cater for the requirements for housing in this area – should it be required. For further comments please refer to separate letter. (Continue on a separate sheet if necessary.)

Please note you should cover succinctly all the information, evidence and supporting information necessary to support/justify your comments.
